

Backend Development (Job-Ready Course)

Section 1: Foundations

What you will learn:

- HTTP
- REST
- Postman
- Node intro

Section 2: Node & Express

What you will learn:

- Node
- Express
- Routing
- Middleware

Minor Projects:

- Notes API

Major Projects:

- REST API

Section 3: Databases

What you will learn:

- MongoDB
- PostgreSQL
- CRUD

Minor Projects:

- CRUD API

Section 4: Auth

What you will learn:

- JWT
- Hashing
- Security

Minor Projects:

- Auth API

Major Projects:

- E-commerce Backend

Section 5: Career

What you will learn:

- Deployment
- Git
- Interview

Major Projects:

- Hospital Backend

Technologies & Tools Covered

- Node.js
- Express
- MongoDB
- PostgreSQL
- JWT
- Postman
- Docker
